

Collateral Rates

Reuse of Stock collateral for other investments

G&T TRADER allows a percentage of the collateral invested in certain Stocks to be used for margin trading activities (CFD, Futures, Contract Options).

The percentage of the collateral that can be used for each Stock and CFD is listed in the table below.

Rating	1	2	3	4	5	6	7	8
Stock value use as margin collateral	n/a	75%	75%	50%	50%	0%	0%	0%

Please note that G&T TRADER reserves the right to decrease or remove Stock collateral for large position sizes, or stock portfolios considered to be of very high risk.

Available stocks and collateral rates

You can select a stock that G&T TRADER currently offers for trading in G&T TRADER Platform under Account section and Trading Conditions.
